State/Federal Boundary	Mississippi & Florida	
State waters extend into the Gulf of Mexico 3 miles south of Alabama's coastline from Florida almost due west along the Fort Morgan Peninsula and Dauphin Island to Mississippi; however, the line extends southward 3 miles from Dauphin Island. A rule of thumb for Mobile Bay: if you are north of the Farewell Buoy, you are in state waters; if south, you are in federal waters.	Mississippi and Florida also require saltwater fishing licenses. Florida's state waters extend 9 miles from the coastline. You can be fined for straying into another state's waters with fish caught in Alabama or federal waters.	ALL FISHING REGULATIONS ARE SUBJECT TO CHANGE, SO BEFORE GOING FISHING CHECK WITH THE MARINE RESOURCE DIVISION FOR ANY CHANGES.
