### State - Federal Boundary

State waters extend into the Gulf of Mexico 3 miles south of Alabama's coastline from Florida almost due west along the Fort Morgan peninsula and Dauphin Island to Mississippi; however, the line bulges southward 3 miles from Sand Island. A rule of thumb leaving Mobile Bay: if you are south of the Farewell Buoy, you are in federal waters.

### Mississippi/Florida Waters

Mississippi and Florida also require saltwater fishing licenses. Florida's state waters extend 9 miles from the coastline. You can be fined for straying into another state's waters with fish caught in Alabama or federal waters.
