Conservation**

Recreational Saltwater Fishing Regulations

Anglers must enroll in the [Recreational Marine Fishing Registry](#) when angling for the fish species listed below.

Anglers fishing for tuna and shark must also apply for a [Highly Migratory Species](#) (Link leaves DEC website) permit.

(Note: the registry is not required for harvesting crabs or lobsters. A separate permit is required for lobsters).

This summary is provided for your convenience, the official written regulations published by the Department of State are the official source for NYSDEC regulations. To read the actual regulations, please follow the links to the right: marine fish (6 NYCRR Part 40) or lobster and crabs (6 NYCRR Part 44).

For printable versions of these regulations please select from the options below:

- [Recreational Saltwater Fishing Limits \(PDF, 52 KB\)](#)
- [Recreational Shark Fishing Limits \(PDF, 42 KB\)](#)
- [Recreational Crab, Lobster, and Whelk Limits \(PDF, 39 KB\)](#)

See [Tidal Hudson River Regulations](#) (leaving DEC website to official Fishing Regulations Guide vendor website) for additional information on fishing in the Hudson River and its tributaries.

See [Shellfish Harvest Limits](#) for additional information on recreational shellfishing.

Have you caught a tagged fish? Visit [Striped Bass Cooperative Anglers Program](#) to find out who to contact.

Effective Date: March 30, 2018

Marine Fishing Limits

Species	Size Limits (1) (Total Length in Inches)	Possession Limits (Number of Fish)	Open Seasons
Winter Flounder	12	2	April 1 - May 30

About this capture

Anadromous river herring (alewife and blueback herring) (north of George Washington Bridge)(7) See Tidal Hudson River Regulations (leaving DEC website to official Fishing Regulations Guide vendor website)	No size limit	10 per angler or 50 per boat	March 15 - June 15
Anadromous river herring (alewife and blueback herring) (south of George Washington Bridge)	No possession	No possession allowed	No possession allowed
American shad	No possession	No possession allowed	No possession allowed
Atlantic sturgeon	Moratorium	No possession allowed	No possession allowed

- (1) Total length is the longest straight line measurement from the tip of the snout, with the mouth closed, to the longest lobe of the tail, with the lobes squeezed together, and the fish laid flat on the measuring device. Exception: Black sea bass are measured from the tip of the snout (or jaw), with the mouth closed, to the farthest extremity of the tail, not including the tail filament.
- (2) A party/charter boat customer who lands and possesses more than 30 scup during September 1 - October 31 must obtain a dated original fare receipt from the licensed vessel.
- (3) Summer flounder may not have heads or tails removed or be otherwise cleaned, cut, filleted, or skinned until brought to shore, with the following exception: the white side fillet or white skin only of a legal size fluke may be removed to use as bait. The carcass of the fluke with dark side completely intact must be retained for inspection of size limit and counts against the possession limit.
- (4) Anglers aboard federally permitted party or charter vessels may possess any number of Atlantic cod, consistent with federal rules.
- (5) The fillet length is the longest straight line measurement from end to end of any fleshy side portion of the fish cut lengthwise away from the backbone, which must have the skin intact, laid flat on the measuring device.
- (6) Dressed length is the longest straight line measurement from the most anterior portion of the fish, with the head removed, to the longest lobe of the caudal fin(tail), with the caudal fin intact and with the lobes squeezed together, laid flat on the measuring device.
- (7) Anadromous river herring is defined in 6 NYCRR Part 10 (except the Hudson River and its tributaries and embayments north of the George Washington Bridge at river mile 11).

Recreational Fishing Regulations for Sharks in State Waters

Category	Species	Minimum Size Limit	Daily Possession Limit
Allowed Sharks	Tiger, Blacktip, Bull, Lemon, Nurse, Spinner, Blue, Shortfin mako, Oceanic whitetip, Porbeagle, Common Thresher, Blacknose	54 inches fork length (8)	One shark per vessel per trip,
	Great hammerhead, Scalloped hammerhead, Smooth hammerhead	78 inches fork length (8)	except that one additional Atlantic
	Atlantic Sharpnose, Bonnethead, Finetooth, Blacknose	No size limit	Sharpnose and one additional Bonnethead may be taken and possessed

About this capture

266 captures

26 May 2007 - 12 Jan 2019

Prohibited Sharks	Atlantic angel, Galapagos, Basking, Longfin mako, Bigeye sand tiger, Narrowtooth, Bigeye Sixgill, Night, Bigeye thresher, Sand tiger, Bignose, Caribbean reef, Caribbean sharpnose, Smalltail, Dusky, Whale, White (9), Silky and Sandbar, Sharpnose sevengill, Bluntnose sixgill.	No possession allowed	No possession allowed
--------------------------	--	-----------------------	-----------------------

(8) Fork length means the straight-line measurement of a fish from the tip of the snout to the fork of the tail. The measurement is not made along the curve of the body.

(9) A person may fish for white sharks with rod and reel, provided the person releases such fish immediately with a minimum of injury and that such fish may not be removed from the water.

Other provisions: All landed sharks must have head, tails and fins attached. No sale allowed. No finning. Sharks, excluding spiny dogfish, shall not be taken for commercial or recreational purposes by baited hooking except with the use of non-stainless steel non-offset circle hooks. No person shall conduct, sponsor or participate in any shark tournament unless said tournament's rules and regulations require the exclusive use of non-stainless steel, non-offset circle hooks.

For additional information on sharks in New York, visit [Shark Fishing](#).

Recreational Crab, Lobster, and Whelk Limits

Species	Minimum Size (Inches)	Daily Possession Limit	Open Season
American lobster (10) <i>Recreational permit required</i>	3 3/8" minimum carapace length 5 1/4" maximum carapace length	6	LMA 4: closed April 30 - May 31 LMA 6: closed Sept 8 - Nov 28 All other LMAs: open all year <i>Descriptions & locations of lobster management areas (LMAs) are available in Part 44: Lobster and Crab Regulations (link leaves DEC website)</i>
Blue crab (10) Hard shell Soft shell Peeler/Shedder (11)	4 1/2" 3 1/2" 3"	50	All year
Crabs (except blue or blue-claw crabs)	No size limit	50	All year
Horseshoe crabs	No size limit	5	All year
Whelk	No size limit	24	All year

(10) Lobsters and crabs with eggs may not be taken or possessed.

(11) Peeler/shredder is when the crab is about to molt or shed its hard outer shell. At this stage, the crab has a fully formed soft shell beneath the hard outer shell. The impending shedding process is evident by the white coloration along the outer rim of the paddle-like appendages on the crab's fifth pair of legs.

Other provisions: Terrapin Excluder Devices (TEDs) must be used on all non-collapsible crab pots or traps that are fished in creeks, coves, rivers, tributaries, and near-shore harbors of the Marine and Coastal District. TEDs shall be securely fastened inside each funnel entrance of the crab pot to effectively reduce the size of the funnel opening to no larger than 4-3/4 inch by 1-3/4 inch. An [interactive map](#) (link leaves DEC's website) is available for reference.

For additional information on crab regulations, visit [Crabbing in NY](#).
