About the

Gulf of Mexico Fishery Management Council

The Gulf of Mexico Fishery Management Council is one of eight regional Fishery Management Councils established by the Fishery Conservation and Management Act of 1976. The Council prepares fishery management plans, which are designed to manage fishery resources within the federal waters of the Gulf of Mexico.

The Council consists of 17 voting members: the Southeast Regional Administrator of NOAA Fisheries Southeast Regional Office, the directors of the five Gulf state marine resource management agencies, and 11 members who are nominated by the state governors and appointed by the Secretary of Commerce. There are also four non-voting members representing the U.S. Coast Guard, U.S. Fish and Wildlife Service, Department of State, and the Gulf States Marine Fisheries Commission.

When reviewing potential rule changes, the Council draws upon the services of knowledgeable people from other state and federal agencies, universities, and the public to balance competing interests and achieve the greatest overall benefit to the nation.

Scoping workshops and public hearings are held throughout the Gulf coast to collect your input. Public comment is considered by the Council before it takes final action on proposed rule changes. The Council also collects comments on proposed changes through virtual meetings and online comment forms. Public testimony is heard during each Council meeting. After the Council takes final action, proposed rule changes are submitted to National Marine Fisheries Service for further review and approval before implementation by the Secretary of Commerce.

Recreational Fishing Regulations

Reef Fish - Snappers

| 2017 Recreational Fishing Season Calendar | | | | | | | | | | | | | | |
|--|--------|-----|-----|-----|-----|--|-----|--------|-----|-----|-----|-----|--------------|---------------------------|
| Species | Jan | Feb | Mar | Apr | May | Jun | Jul | Aug | Sep | Oct | Nov | Dec | Minimum Size | Bag Limit |
| Snapper | | | | | | | | | | | | | | |
|  Red Snapper ★ | Closed | | | | | Opens June 1 - closes when annual catch limits are projected to be met | | Closed | | | | | 16 inches TL | 2/pp |

|  Vermillion Snapper ★ | | | | | | | | | | | | | 10 inches TL | 10/pp | |
|  Lane Snapper | | | | | | | | | | | | | 8 inches TL | | |

★ Subject to in-season closure if annual catch limit is projected to be met.

Reef Fish - Other

| 2017 Recreational Fishing Season Calendar | | | | | | | | | | | | | | |
|--|--------|-----|-----|-----|-----|-----|-----|-----|-----|-----|-----|-----|--------------|-----------------------------|
| Species | Jan | Feb | Mar | Apr | May | Jun | Jul | Aug | Sep | Oct | Nov | Dec | Minimum Size | Bag Limit |
| Other Reef Fish | Closed | | | | | | | | | | | | 14 inches FL | 2/pp |
|  Gray Triggerfish ★ | | | | | | | | | | | | | none | 20 reef fish combined total |
|  Almaco Jack | | | | | | | | | | | | | none | |
|  Golden Tilefish | | | | | | | | | | | | | none | |

★ Subject to in-season closure if annual catch limit is projected to be met.

| Species | Jan | Feb | Mar | Apr | May | Jun | Jul | Aug | Sep | Oct | Nov | Dec | Minimum Size | Bag Limit |
|---|-----|-----|-----|-----|-----|-----|-----|-----|-----|-----|-----|-----|--------------|-----------------------------|
| No Image Available | | | | | | | | | | | | | none | 20 reef fish combined total |
| Goldface Tilefish | | | | | | | | | | | | | none | |
|  Blueline Tilefish | | | | | | | | | | | | | 12 inches FL | 5/pp |
|  Hogfish | | | | | | | | | | | | | 12 inches FL | 5/pp |

Note: Hogfish - increase to 14 inch TL minimum size limit pending

| Species | Jan | Feb | Mar | Apr | May | Jun | Jul | Aug | Sep | Oct | Nov | Dec | Minimum Size | Bag Limit | |
|--|-----|-----|-----|-----|-----|--------|-----|-----|-----|-----|-----|-----|-----------------|-----------|-----------------------|
|  Greater Amberjack ★ | | | | | | Closed | | | | | | | 34 inches FL | 1/pp | |
|  Lesser Amberjack | | | | | | | | | | | | | 14-22 inches FL | | 5 fish combined total |
|  Banded Rudderfish | | | | | | | | | | | | | 14-22 inches FL | | |

★ Subject to in-season closure if annual catch limit is projected to be met.

NOTES:

- For-hire captains and crew are prohibited from retaining bag limits of any grouper, greater amberjack, or red snapper while under charter.
- Federally permitted for-hire reef fish vessels must comply with the more restrictive of federal or state reef fish regulations when fishing for reef fish in state waters.
- When fishing in state waters off Monroe County, FL, South Atlantic regulations apply.

Reef Fish - Groupers

Shallow-water Grouper Closure (Map of the 20-fathom break)

Title 50 CFR: Wildlife and Fisheries - PART 622 FISHERIES OF THE CARIBBEAN, GULF OF MEXICO, AND SOUTH ATLANTIC
Subpart B – Reef Fish Resources of the Gulf of Mexico - §622.34 Seasonal and area closures designed to protect Gulf reef fish

(d) Seasonal closure of the recreational sector for shallow-water grouper (SWG). The recreational sector for SWG, in or from the Gulf EEZ, is closed each year from February 1 through March 31, in the portion of the Gulf EEZ seaward of rhumb lines connecting, in order, the points in the following table. During the closure, the bag and possession limit for SWG in or from the Gulf EEZ seaward of the following rhumb lines is zero.

[See coordinates next page.](#)

Seasonal closure (Feb 1 - Mar 31) of the recreational sector for shallow-water grouper (SWG)

| Shellfish | | | | | | | | | | | | | | |
|  | | | | Closed April 1 - August 5 with a 2 day mini-season the last consecutive Wednesday and Thursday in July. | | | | | | | | | 3 inches minimum carapace | 6/pp |
| Spiny Lobster | | | | | | | | | | | | | | |
| Other | | | | | | | | | | | | | | |
|  | Closed | | | | | | | | | | | | | |
| Red Drum | | | | | | | | | | | | | | |

Coral and Other Species

| Species | Notes |
|-----------------------------|---|
| Live Rock | Harvest and possession of live rock is prohibited, except for permitted aquaculture operations. Call 727-824-5763. |
| Other Marine Life Organisms | Marine life organisms from the EEZ harvested or possessed by Florida residents or landed in Florida are subject to Florida’s Marine Life Rule. Contact the Florida Fish and Wildlife Commission for more information at 850-487-3122. |

| Highly Migratory Species | |
|--------------------------|--|
| Tunas | |
| Billfish | For Highly Migratory Species Compliance Guide Visit: http://www.nmfs.noaa.gov/sfa/hms/compliance/guides/index.html |
| Swordfish | Contact the HMS Division of NOAA Fisheries for more information: 301-427-8503 |
| Sharks | |

Recreational Permit Requirements

| Permit | Required for: |
|--|--|
| Charter vessel/headboat coastal pelagics permit | Charter vessel and headboats fishing for mackerels, cobia, little tunny, cero, dolphin, bluefish. NOTE: Issuance of new permits is under a moratorium effective 6/16/2003. |
| Charter vessel/headboat reef fish permit | Charter vessels and headboats fishing for snappers, groupers, amberjack, tilefish, hogfish, and gray triggerfish. NOTE: Issuance of new permits is under a moratorium effective 6/16/2003. |
| Highly migratory species (HMS) charter/headboat permit | All charter or headboats that fish for or possess highly migratory species. |
| HMS recreational angling permit | Owners of vessels used to fish recreationally for Atlantic HMS - Atlantic tunas (other than blackfin), billfish, sharks, and swordfish. |

Additional Rules

| | |
|--|---|
| Two-Day Bag Limit | Persons on qualified charter vessels or headboats with two captains for trips in excess of 24 hours may possess a 2-day bag limit of reef fish, king mackerel, and Spanish mackerel. One-day bag limits apply to all other species and trips, regardless of length. |
| Head & Fins Attached | All fish, except for bait and oceanic migratory species, taken from federal waters must have heads and fins intact through landing. Up to 1.5 pounds of finfish per person is exempt from this rule for personal consumption, provided the vessel is equipped to cook such finfish. |
| For-Hire Captains and Crew | For-hire captains and crew are prohibited from retaining bag limits of any grouper, red snapper, or greater amberjack while under charter. |
| Federally Permitted For-Hire Reef Fish Vessels | Federally permitted for-hire reef fish vessels must comply with the more restrictive of federal or state reef fish regulations when fishing for reef fish in state waters. |
| Reef Fish as Bait | The use of federally managed reef fish as bait is prohibited. |
| Non-Stainless Steel Circle Hooks | Non-stainless steel circle hooks, along with dehooking devices, are required when angling for reef fish in federal waters. |
| Gear | Reef fish gear is limited to no more than 3 hooks in a special management zone off of Alabama. Nonconforming gear is restricted to bag limit. For reef fish without a bag limit, nonconforming gear is restricted to 5% by weight of all fish onboard. |
| Stressed Areas | Use of roller trawls and power heads is prohibited in designated stressed areas. Stressed areas for reef fish begin at the shoreward boundary of federal waters and generally follow the 10 fathom contour from the Dry Tortugas to Sanibel Island; the 20 fathom contour to Tarpon Springs; the 10 fathom contour to Cape San Blas; the 25 fathom contour to south of Mobile Bay; the 13 fathom contour to Ship Island, Mississippi; the 10 fathom contour off Louisiana; and the 30 fathom contour off Texas. |
| Sale of Recreationally Caught Reef Fish | Reef fish taken under the recreational bag limit may not be sold. |
| Care and Release of Incidental Catch of Smalltooth Sawfish and Sea Turtles | Operators of vessels with Gulf of Mexico reef fish commercial or charter vessel/headboat permits must comply with guidelines for proper care and release of incidentally caught smalltooth sawfish and sea turtles and must possess onboard specific gear to ensure proper release of such species. |

Measurement Guidelines

Fork length: the straight-line distance from the tip of the head (snout) to the rear center edge of the tail (caudal fin).

Total length: the straight-line distance from the tip of the snout to the tip of the tail (caudal fin), excluding any caudal filament, while the fish is lying on its side. The mouth of the fish may be closed and/or the tail may be squeezed together to give the greatest overall measurement.

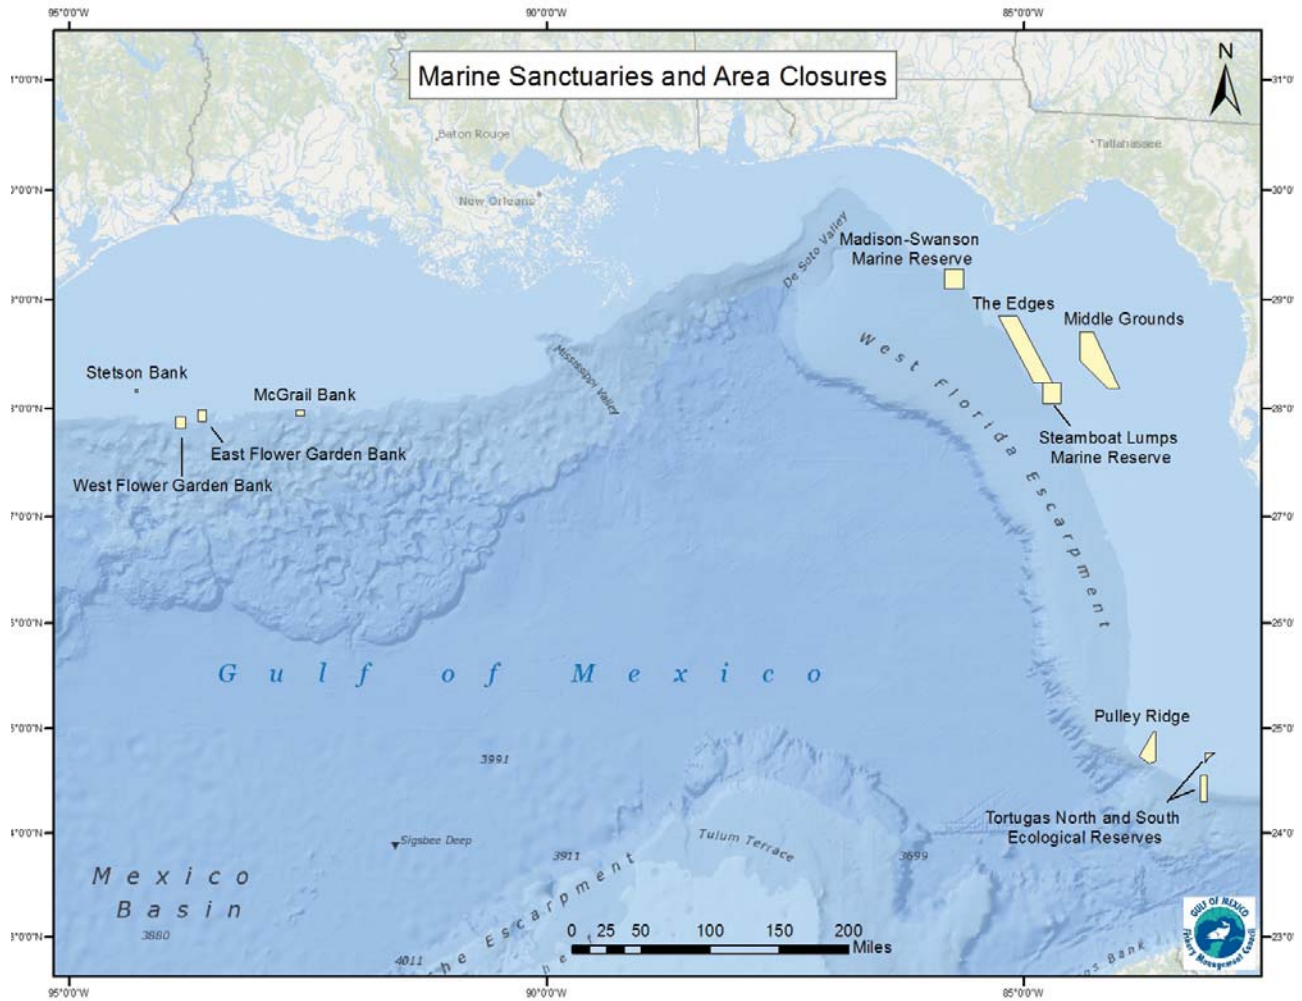

Curved fork length: the tip of the jaw to form of tail measured along the contour of the middle of the body.

Carapace length: The carapace is measured beginning at the forward edge between the rostral horns, excluding and soft tissue, and proceeding along the middle to the rear edge of the carapace.

Marine Sanctuaries and Area Closures

Detailed maps, coordinates, and regulations associated with each area can be found on pages 19-32.

Flower Garden Banks National Marine Sanctuary

Below is a summary of regulated activity within the FGBNMS. For the full text, contact the Sanctuary office at 409-621-5151 or visit www.flowergarden.noaa.gov.

Fishing and Related Activities

The following activities are generally prohibited:

- Injuring, catching, harvesting, collecting or feeding, or attempting to injure, catch, harvest, collect or feed, any fish within the sanctuary by use of any gear, device, equipment or means (e.g. spear guns, nets) except by use of conventional hook and line gear.
- Possessing (except while passing through the sanctuary without interruption) any fishing gear, device, equipment, or means except conventional hook and line gear.
- Possessing or using explosives or releasing electrical charges within the sanctuary.

Conventional hook and line gear means any fishing apparatus operated aboard a vessel and composed of a single line terminated by a combination of sinkers and hooks or lures and spooled upon a reel that may be hand or electrically operated, hand-held or mounted.

Anchoring and Mooring

The following activities are prohibited:

- Anchoring any vessel within the Sanctuary.
- Mooring a vessel over 100 feet in registered length on a Sanctuary mooring buoy.

Discharges

Discharging or depositing any material or other matter within the Sanctuary is prohibited, with the following exceptions:

- Fish, fish parts, chumming materials or bait used in or resulting from fishing with conventional hook and line gear in the sanctuary.
- Clean effluent from an operable Type I or Type II marine sanitation device (MSD).
- Clean water generated by routine vessel operations (e.g. engine exhaust, cooling water, deck wash down, and gray water), excluding oily wastes from bilge pumping.

Injury to or Possession of Sanctuary Resources

The following activities are generally prohibited:

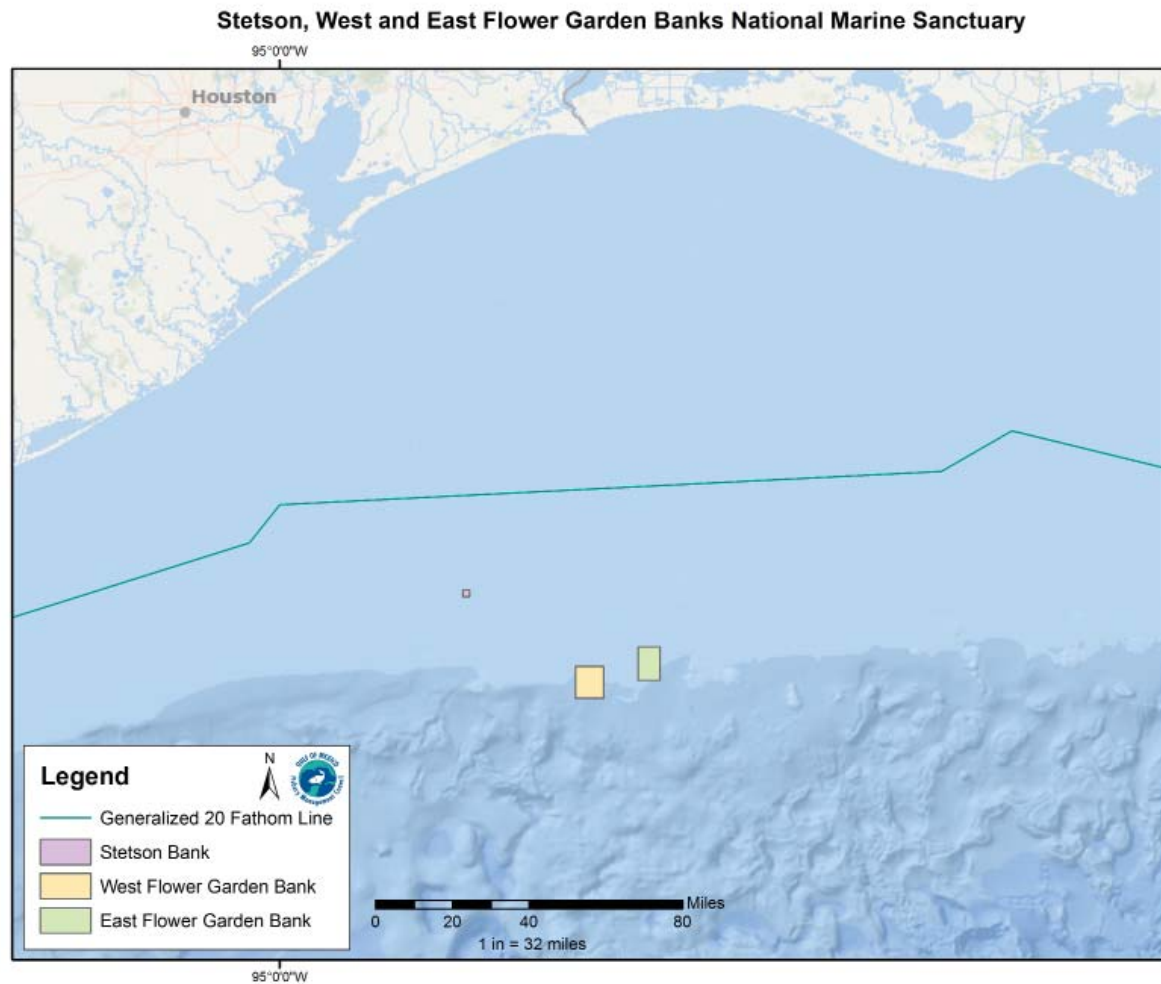

- Injuring or removing, or attempting to injure or remove, any coral or other bottom formation, coralline algae or other plant, marine invertebrate (e.g., *spiny lobster*, *queen conch*, *shell*, *sea urchin*) brine-seep biota or carbonate rock.
- Possessing within the Sanctuary (regardless of where collected), any coral or other bottom formation, coralline algae or other plant, or fish (except for fish caught by use of conventional hook and line gear).
- Drilling into, dredging, or otherwise altering the seabed of the sanctuary; or constructing, placing, or abandoning any structure, material, or other matter on the seabed of the Sanctuary.

Madison Swanson, Steamboat Lumps, and the Edges

50 CFR: Wildlife and Fisheries - PART 622 FISHERIES OF THE CARIBBEAN, GULF OF MEXICO, AND SOUTH ATLANTIC
§622.34 - Gulf EEZ seasonal and/or area closures.

(k) Closure provisions applicable to the Madison and Swanson sites, Steamboat Lumps, and the Edges.

(2) Within the Madison and Swanson sites and Steamboat Lumps, possession of Gulf reef fish is prohibited, except for such possession aboard a vessel in transit with fishing gear stowed as specified in paragraph (k)(4) of this section.

(3) Within the Madison and Swanson sites and Steamboat Lumps during November through April, and within the Edges during January through April, all fishing is prohibited, and possession of any fish species is prohibited, except for such possession aboard a vessel in transit with fishing gear stowed as specified in paragraph (k)(4) of this section. The provisions of this paragraph, (k)(3), do not apply to highly migratory species.

(4) For the purpose of paragraph (k) of this section, transit means non-stop progression through the area; fishing gear appropriately stowed means -

(i) A longline may be left on the drum if all gangions and hooks are disconnected and stowed below deck. Hooks cannot be baited. All buoys must be disconnected from the gear; however, buoys may remain on deck.

(ii) A trawl net may remain on deck, but trawl doors must be disconnected from the trawl gear and must be secured.

(iii) A gillnet must be left on the drum. Any additional gillnets not attached to the drum must be stowed below deck.

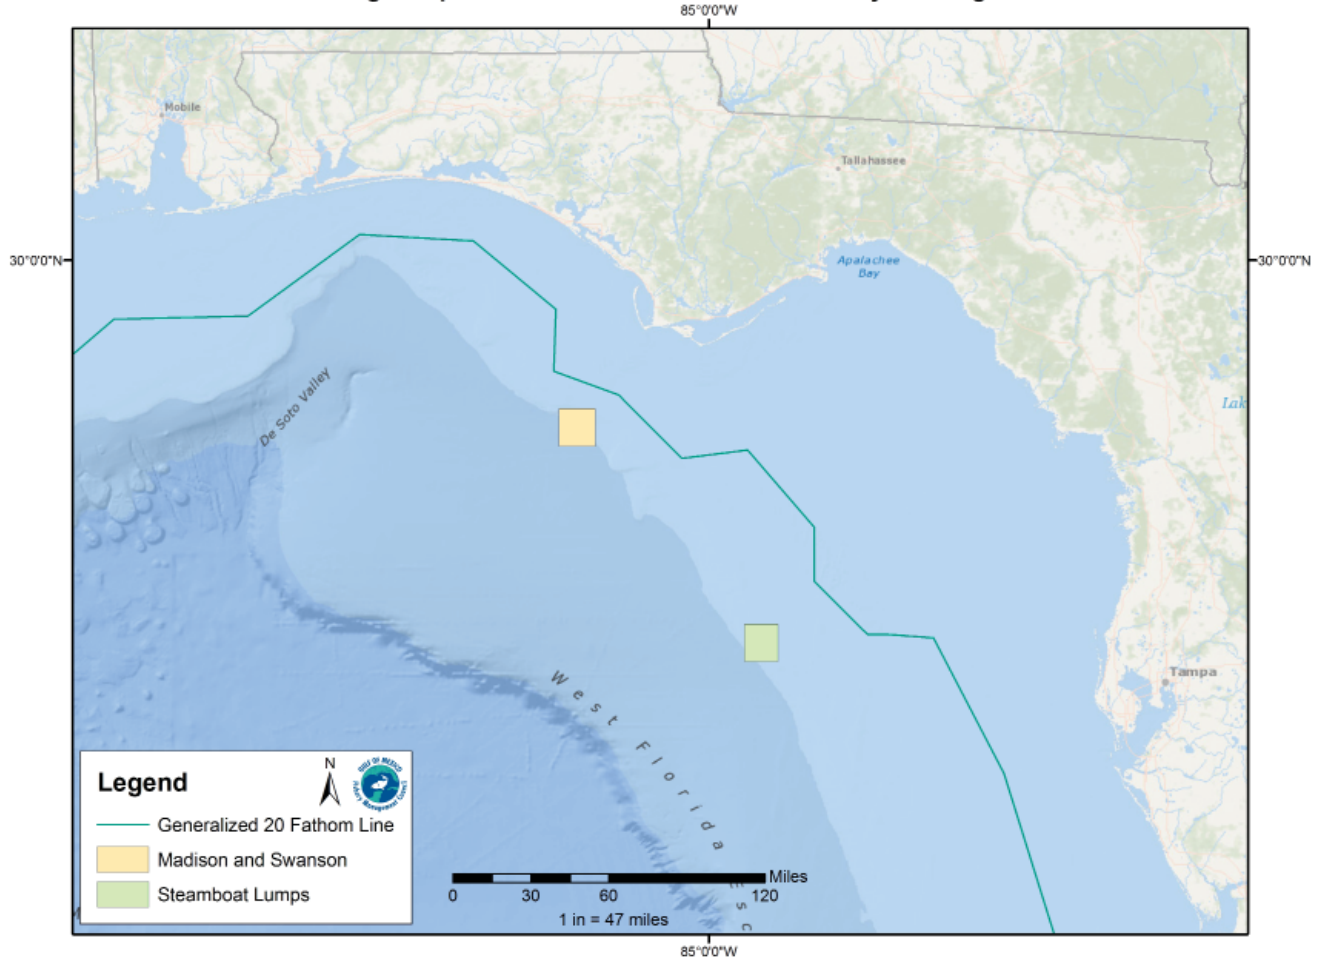

(iv) A rod and reel must be removed from the rod holder and stowed securely on or below deck. Terminal gear (i.e., hook, leader, sinker, flasher, or bait) must be disconnected and stowed separately from the rod and reel. Sinkers must be disconnected from the down rigger and stowed separately.

(5) Within the Madison and Swanson sites and Steamboat Lumps, during May through October, surface trolling is the only allowable fishing activity. For the purpose of this paragraph (k)(5), surface trolling is defined as fishing with lines trailing behind a vessel which is in constant motion at speeds in excess of four knots with a visible wake. Such trolling may not involve the use of down riggers, wire lines, planers, or similar devices.

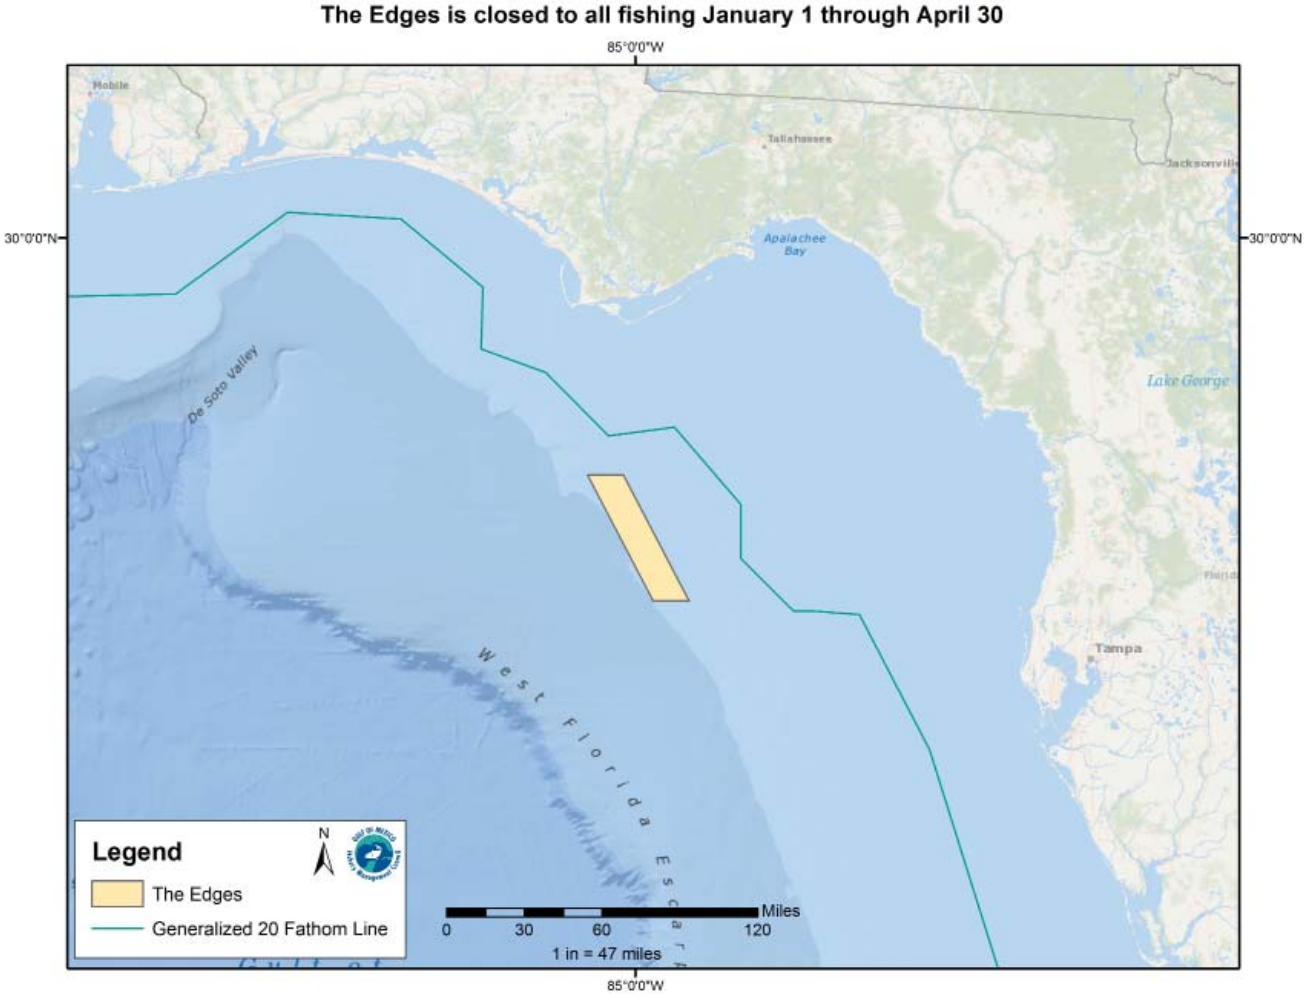

(6) For the purpose of paragraph (k) of this section, fish means finfish, mollusks, crustaceans, and all other forms of marine animal and plant life other than marine mammals and birds. Highly migratory species means tuna species, marlin (*Tetrapturus* spp. and *Makaira* spp.), oceanic sharks, sailfishes (*Istiophorus* spp.), and swordfish (*Xiphias gladius*).

Madison Swanson and Steamboat Lumps

**Madison-Swanson and Steamboat Lumps Marine Reserves closed year round to reef-fish fishing.
Surface trolling for species other than reef fish allowed May 1 through October 31.**

The Edges (40 fathom contour)

Madison-Swanson and Steamboat Lumps Reserves are closed to reef-fish fishing year round. Surface trolling for species other than reef fish is allowed May 1 through October 31.

| Madison-Swanson Marine Reserve | | |

Gulf of Mexico Federal Waters

The Gulf of Mexico Fishery Management Council manages fisheries in the federal waters of the Gulf of Mexico Exclusive Economic Zone. Federal waters begin where state waters end and extend to the 200-mile limit of the Gulf of Mexico.

Title 50: Wildlife and Fisheries

Part 600 - Magnuson-Stevens Act Provisions

Subpart B - Regional Fishery Management Councils

§ 600.105 Intercouncil boundaries.

(c) South Atlantic and Gulf of Mexico Councils. The Boundary coincides with the line of demarcation between the Atlantic Ocean and the Gulf of Mexico, which begins at the intersection of the outer boundary of the EEZ, as specified in the Magnuson-Stevens Act, and 83°00'W long., proceeds northward along that meridian to 24° 35' N lat., (near the Dry Tortugas Islands), thence eastward along that parallel, through Rebecca Shoal and the Quicksand Shoal, to the Marquesas Keys, and then through the Florida Keys to the mainland at the eastern end of Florida Bay, the line so running that the narrow waters within the Dry Tortugas Islands, the Marquesas Keys and the Florida Keys, and between the Florida Keys and the mainland are within the Gulf of Mexico.

State Authority in Federal Waters

A state may regulate vessels that are registered in that state and fishing in federal waters for species for which there are no federal fishery management plans or applicable federal regulations, or for which the appropriate fishery management plan has delegated management of the state and the state rules are consistent with federal regulations.

NOTE: Federally permitted for-hire reef fish vessels must comply with the more restrictive of federal or state reef fish regulations when fishing for reef fish in state waters.
